## CAMELLIAS

The Camellias are the stateliest of all the broad-leaved evergreens in Southern gardens. Their culture is simple. They like good drainage, acid soil with plenty of organic matter, and uniform moisture. They prefer partial shade, especially from the afternoon sun, but larger specimens can be planted in full sun. In planting the ball should not be unwrapped or placed deeper than it was in the nursery. A heavy mulch of oak leaves or pine straw is desirable.

Whenever possible, in listing our varieties we use the name accepted by the American Camellia Society as correct. Names that follow in parenthesis have been synonyms. Anyone wishing to become a member of the American Camellia Society can get an application blank from us.

## GENERAL INFORMATION

**TERMS:** Cash with order for immediate shipment. We are glad to book orders in advance in which case 25 % deposit is required and balance upon delivery.

**PRICES:** All prices are f.o.b. our nursery and subject to change without notice. Specimen stock selected or marked by our customers in the nursery will be priced according to its value.

**GUARANTY:** We guarantee our plants to be well rooted, healthy, free of disease, and properly packed for shipment. We cannot guarantee plants to live, since the planting, care, and growing conditions to which they are subjected after leaving our nursery, are out of our control. If correctly treated, they will do well.

**PACKING AND SHIPPING:** If order has to be crated, a packing fee of 10 % of amount of invoice should be included with order. We will ship by means instructed. If goods are damaged in transit, file your claim with the carrier.

**PLANTING SEASON:** Balled and burlapped evergreens and potted plants may be safely moved almost any month of the year. All plants can be moved from November 1 to March 15.

**LOCATION:** The Santa Rosa Nursery Company is located one mile South of Bagdad, Florida, in Santa Rosa County. Visitors are cordially invited to visit our nursery.
